"Finally,
there is Hope!"
-- A reader

When medications FAIL, it's
time to give this formula a try.

A natural, food for the Thyroid Gland.
Excellent for maintaining and
regulating normal thyroid function.

Charge up your.. **THYROID Glands!**

This Natural Formula adds a
SPARK to your Thyroid Glands.

'I am so thankful for this formula!
My hands are warmer and I lost
weight. I notice a big difference
when I don't take it.' - Nevada

The Thyroid Hormones are like a **SPARK PLUG** for
the cells. No Spark, No Energy. Very simple.

Low Thyroid Function affects women seven times more than men.

Dear Friend,

Over 40 million Americans have thyroid
problems -- and don't even know it. A famous
medical doctor wrote a book once,
'Hypothyroidism: The Unsuspected Illness.'

Two main symptoms of low thyroid function: **Weight Gain & Fatigue.**

Common symptoms of a low thyroid condition
are fatigue, cold hands and feet, weight gain,
depression, dry skin, constipation and low basal
body temperature. Other thyroid symptoms
include memory loss, low sex drive, PMS,
osteoporosis and aching muscles.

Thyroid hormone levels decline with age.

What does the Thyroid Gland do? It controls
the burning of glucose within the cell. When the
FIRE within your cells is **LOW**, you will have a
slow metabolism. Your energy is **LOW**.

Even hair loss is related to the thyroid gland.
One woman stopped her thyroid medication, and
her hair started to fall out. This same woman now
takes this herbal Thyroid Food and doesn't need
thyroid medication any longer.

'This formula has helped a lot of people.'

- Loren Biser, Editor

Note: If you suspect you have a thyroid problem, always
check with your medical doctor. Many also suffer from
hyperthyroidism. The first step is correct diagnosis. Adrenal
function is also closely related to thyroid function.
