Nurse

Virginia Housewife claims...

'I avoided Gum Surgery!'

"I had bleeding, inflamed gums for five years. They bled when I brushed. The dentist advised deep gum work. I took this formula daily. Now, there's no bleeding and I don't need gum surgery."

Dear Friend,

You may laugh at old-time remedies -- but -- you won't be laughing once you start having gum problems. Because once your gums go, as they often do when we get older, then your teeth go.

When the gums cannot grip the teeth properly, the teeth can get loose and fall out. And in too many cases, there is not much modern dentistry can do to help.

'Weak gums are the road to dentures.'

One natural remedy that can offer great help for gums is called *The Magic Tooth Formula*. It is made in a little mountain town in Virginia. It was inspired by a master Native American Indian herbalist from Minnesota.

This formula is made by an herbal student named Sheila Kern. It is not a product you will find in stores. Nothing is written about it, except what you read here. It is only created in small batches, and often takes months to prepare. No corners are cut in quality, as you often find in commercial products.

One dentist swears this formula re-calcifies teeth.

Infection. This herb is a drawing agent. This pulls pus, dirt and infection out of wounds. A patient had a molar extracted which caused a bad infection. She was in horrible pain. This helped to pull out huge gobs of pus.

Infected Root Canal. This herb brings calcium to teeth. A patient had an infection extending into the jaw. After one month, the dentist saw the new x-ray. "I can't believe it. It's healed!"

'The supreme aim of dentistry should be to save a tooth at all costs.' - Beverly Hills Dentist

Bleeding gums. "I had gone to the dentist every 3-4 months for the last eight years. But no dentist could help my gums. My gums would always bleed; they would never heal."

"After only three weeks on this formula, the redness and swelling left. The sensitivity is gone. I call this - Gum Magic!"

Note: Always see your dentist on a regular basis.

A powerful, old formula that could change modern dentistry.

The Magic TOOTH Formula

Save your Teeth, save your GUMS.

100%
Natural.

Excellent for weak gums, infections, loose teeth, tooth decay, dental pain.

Chronic infection in your gums can lead to...Heart problems, Diabetes & Strokes.

No Dental Problems.

"I have been taking this formula for 20 years and never had a dental problem." - Matt Woods

Great for Dental Infections.

"This can draw pus and infection from the roots of teeth."

Great for Cavities.

"One dentist uses this to prevent dental cavities.

Infection Gone.

"I had a bad gum infection in the back of my lower, left molar. For days I was in pain. I applied the Magic Tooth Formula 3-4 times a day and often in the middle of the night. Magically, the pain left and never returned." - Loren Biser, Virginia.

Gums healed.

A dentist wanted to pull all the teeth from a woman with bad gums. He wanted to do surgery on the jaw. This saved all her teeth. No surgery was needed.

'This formula should be right there beside your toothbrush and toothpaste.' - Sheila Kern
